

Dry coolers

DCO1200 Dry Cooler

The dry cooler is a cooler in which the process water is passed through a cooling block and cooled by ambient air. This is done by a forced air flow over the cooling block. This with an infinitely variable ventilation control. This unit can also be used as a heater. The unit is ready to plug in and easy to install due to the use of shortcuts. The unit can easily be moved with a forklift truck.

Technical specifications DCO1200

Cooling capacity ¹	355 kW	Recommended Fuses	32 A	Dimensions (LxWxH)	5251 x 2680 mm
Current (nominal)	22 A	Max. air flow	100.800 m ³ /h	Weight	2050 kg
Power connection	32 A CEE	Water connection	DN100	Sound level (at 10 m)	63 dB(A)

¹ According to Eurovent specifications (cooling: water -25 °C / -20 °C, air 35 °C)
