

Heater MOH385

All heaters can be fitted with a variety of blow-off options. As a default, all our heaters are supplied with a thermostat, a spark catcher and a flue tube.

Technical specifications MOH385

Heating capacity	385 kW
Nominal air flow	23500 m ³ /h
Voltage	400 V
Power consumption	7.5 kW
Power connection	32 A CEE
Phases	3 + N + E
Consumption	37.6 L/h
(Air) pressure	950 Pa
Fuel type	HBO1
Length	3850 mm
Width	1200 mm
Height	2100 mm
Weight	1450 Kg
